

## **JANFREX: Best Thermoforming Equipment Provider**

### **Excellence Awards 2018**

On the night of October 18, JANFREX was honored to attend the 2018 Excellence Awards ceremony, which recognizes the best companies in the plastics industry for their dedication and work. This event is organized since 2015 by the MP Magazine, Plastimagen and ANIPAC (Mexican Plastic Industry Association).

At the ceremony, many categories were awarded. JANFREX won the award as the Best Thermoforming Equipment Provider.

“Thank you very much for this award, and I’d like to thank to all of our customers, that every year share their trust to us”, said Diego Avelar, JANFREX Thermoforming Division Director.

“I want to thank especially my father, Jesús Avelar, since without his motivation, we could not have made it this far,” Diego concluded.

✖ On the other hand, the Mexican Institute of Plastic, leaded by the Engineer Rafael Blanco, received the award as the Best Company Provider of Consulting and Training Services. Mr. Blanco has worked alongside JANFREX, offering thermoforming trainings.

At the end of the ceremony, Rafael met with Diego, who was

congratulated for his dedication and effort.

The winners were chosen based on more than 700 surveys previously applied to industry clients, who voted according to their experience, and picked the winners of this event.

This was a night full of joys, and was a great motivation for the winners to keep on the good work.

Soon we will be at Expoplasticos 2018, which will take place from November 7 to 9 at Expo Guadalajara, and then we'll have an appointment at Plastimagen 2019 at Expo Citibanamex, Mexico City, from April 2 to 5.

On behalf of JANFREX, Brown Machine Group (USA), GABLER (Germany), Mater Thermoforming Machines (Mexico) and Cumberland Granulators (USA), we want to thank all our Customers for choosing us as theBest Thermoforming Equipment Provider.
